

SEVEN ADVANTAGES OF NEDZINK

ZINC HAS A LONG SERVICE LIFE

A product life of 75 up to 100 years.

ZINC IS MORE DURABLE THAN ALTERNATIVES

Zinc scores as most sustainable building metal.

ZINC IS SELF-REPAIRING

Zinc obtains a uniform self-healing patina layer.

ZINC CAN BE USED UNCONDITIONALLY

Local authorities cannot prohibit zinc, this is against national (government) policy.

ZINC IS 100% RECYCLABLE

Zinc has a relatively high residual value and is therefore mostly recycled.

ZINC IS MAINTENANCE-FREE

Dirt has no effect on zinc.

ZINC HAS AN EXCELLENT ENVIRONMENTAL RECORD

The environmental profile of titanium zinc is outstanding: e.g. due to a low CO₂ (greenhouse gas) contribution and acidification.
