

NATURALLY! NEDZINK NOIR

NEDZINK NOIR IS ACCREDITED AS SUPERB IN QUALITY COMPARED TO OTHER BLACK TIZN BRANDS

The NedZink NOIR material is the best from various studies with black patinated alternatives.

NEDZINK NOIR HAS A LONG SERVICE LIFE

With a product life of 70 to 100 years for roofing and façade cladding and 30 - 50 years for gutters and rainwater system(s), NedZink NOIR is a sustainable investment.

NEDZINK NOIR HAS AN EXCELLENT ENVIRONMENTAL RECORD

The outstanding environmental profile of NedZink NOIR is affirmed in the Environmental Product Declaration (EPD). This EPD provides information on environmental data based on the ecological footprint (LCA). **The material is 100% recyclable.**

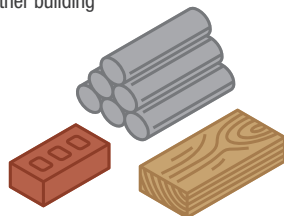

NEDZINK NOIR HAS AN EXTENSIVE PRODUCT RANGE

NedZink NOIR can be used as façade cladding, roofing and drainage system including accessories.

NEDZINK NOIR AS AN AESTHETIC APPLICATION

Due to the uniform, dark and lively appearance, the material is easy to combine with other building materials.

NEDZINK NOIR IS MAINTENANCE-FREE

The black patinated top layer is maintenance-free and self-healing.

NEDZINK NOIR IS EASY TO PROCESS

Due to its excellent processing properties, the anti-fingerprint (AFP) coating and the additional foil, the material is easy to process and remains protected during storage and assembly.
